

Environmental Policy

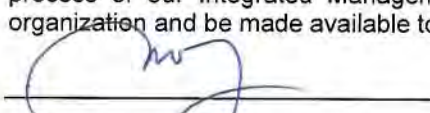

West African Ventures (WAV) recognises the growing international commitment to environmental management and sustainability principles. WAV acknowledges the potential environmental impact that its operations may have on the environment. WAV activities include: Marine offshore support, Engineering, Procurement, Installation and Commissioning (EPIC) contracts for oil and gas companies in West Africa.

Top Management in co-ordination with the Environment Management Representative are accountable for the effectiveness of the Environmental Management System (EMS) and are responsible for ensuring that it is communicated, understood, implemented and maintained at all levels within the company and ultimately achieves its intended outcome / goal of zero environmental incidents.

Top Management is committed to ensuring that the Company will:

- Integrate its environmental policies and procedures fully into all business activities as a critical element;
- Comply with all environmental legislation, codes, standards and contract requirements that are applicable to the company's operation;
- Continually improve its environmental management system to enhance environmental performance and prevention of environmental impact and taking into account current best practices, technological advances, current scientific understanding, customer and community needs, educate, train and promote employees to work in an environmentally responsible manner;
- Be committed to the protection of the environment including prevention of pollution and other specific commitments relevant to the context of the organization;
- Complete environmental assessments for aspects and impacts of all new activities that the company may undertake and to minimise waste to landfill by reducing our waste generation and by segregating and recycling waste where economically and operational feasible;
- Promote and encourage the adoption of our environmental principles by suppliers and contractors acting on behalf of the organisation;
- Develop, implement and maintain emergency preparedness plans; and
- Foster openness and dialogue with both employees and the public, encouraging them to respond with their concerns or improvement ideas within the scope of the organisation's operations and maintain a set of environmental objectives and targets that are monitored through the management review process to ensure effectiveness of the Environmental Management System (EMS) of the Company.

Any changes for improvement opportunities shall be risk assessed as per the Management of Change process of our Integrated Management System. This Policy shall be communicated within the organization and be made available to interested parties upon request.

Michael Amaeshike
Managing Director
